

MOOSE

The UK & EU's vertical integration partner for the micromobility revolution

The Problem

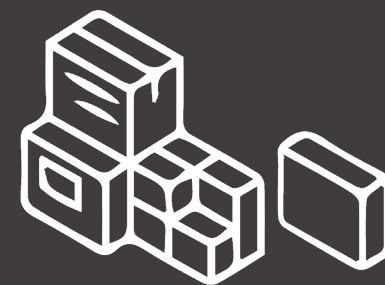

- Most brands and retailers struggle with costly QC issues, growing fulfillment charges and an ever increasing after sale expense.
- The reality is, the scale and resourced needed to handle all of these issues in-house with expert knowledge is immense.

Current Issues

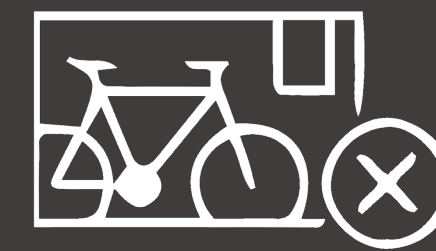

Supply Chain

Growing quality and geopolitical issues affecting supply

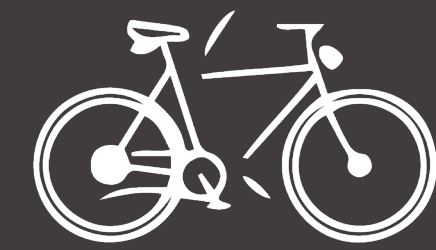

Inventory

Long production windows result in either over or under stocked

Fulfillment

Costly warehousing + struggles with shipping bikes

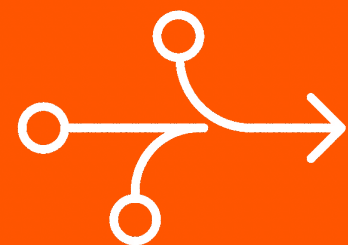

After Sales

High cost of building out repair networks, returns & warranty work

Moose: Your Solution

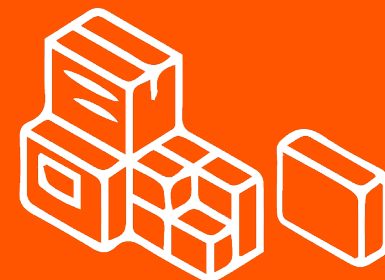

- Moose provides a market leading infrastructure for UK & EU assembly, delivery, servicing and aftercare.
- We ensure that your product arrives to your customer on time and in the most cost-efficient way possible.
